

Reportable Laboratory Findings

Utah

The following laboratory findings are required by law (Communicable Disease Rule R386-702) to be reported to the Utah Department of Health, Bureau of Epidemiology, (801) 538-6191 or to the local health department. Diseases with an asterisk must be reported immediately by phone. All other diseases must be reported within 7 calendar days of laboratory diagnosis by phone or by mail to: Utah Department of Health, Bureau of Epidemiology, 288 N. 1460 W., Box 142870, Salt Lake City, Utah 84114-2870 or to the local health department.

Bacteria & Rickettsiae

Bacillus anthracis (Anthrax)*
Borrelia burgdorferi (Lyme disease)
Borrelia recurrentis (Relapsing fever)
Bordetella pertussis (Pertussis)*
Brucella sp. (Brucellosis)
Calymmatobacterium granulomatis
 (Granuloma inguinale)
Campylobacter sp.
Chlamydia psittaci (Psittacosis)
Chlamydia trachomatis (Chlamydial infections)
Clostridium botulinum (Botulism)*
Corynebacterium diphtheriae (Diphtheria)*
Coxiella burnetti (Q Fever)
Escherichia coli O157:H7*
Francisella tularensis (Tularemia)
Haemophilus ducreyi (Chancroid)
Haemophilus influenzae (from sterile sites)*
Legionella pneumophila (from sterile sites)
Leptospira sp. (Leptospirosis)
Listeria monocytogenes (from sterile sites)
Mycobacterium leprae (Leprosy)
Mycobacterium tuberculosis (Tuberculosis)
Neisseria gonorrhoeae
Neisseria meningitidis (from sterile sites)*
Rickettsia akari (Rickettsialpox)
Rickettsia prowazekii (Typhus)*
Rickettsia rickettsii (Rocky Mountain spotted fever)
Salmonella sp.
Salmonella typhi (Typhoid fever)*
Shigella sp.
Treponema pallidum (Syphilis)
Vibrio cholerae (Cholera)*
Yersinia pestis (Plague)*

Fungi

Coccidioides immitis (Coccidiomycosis)
Histoplasma capsulatum (Histoplasmosis)

Parasites

Echinococcus sp. (Echinococcosis)
Entamoeba histolytica (Amebiasis)
Giardia lamblia (Giardiasis)
Plasmodium sp. (Malaria)
Trichinella spiralis (Trichinosis)

Viruses

Arboviruses
Colorado tick fever
Hantavirus*
Human Immunodeficiency Virus (HIV)^a
Influenza
Mumps*
Polio*
Rabies*
Rubella
Varicella Zoster
Viral Hepatitis (A, B, C, D & E)
Yellow Fever*

Other

Unusual diseases
Any organism isolated from cerebrospinal fluid
Food or waterborne illness*
Outbreaks of any kind*

^aCases of human immunodeficiency virus (HIV) should be reported to the Utah Department of Health, Bureau of HIV/AIDS, 538-6096.
